Die Desktop-Metapher ist tot

Hamburg, 6.6.2005

Autor: Christian Jung

* 1984?

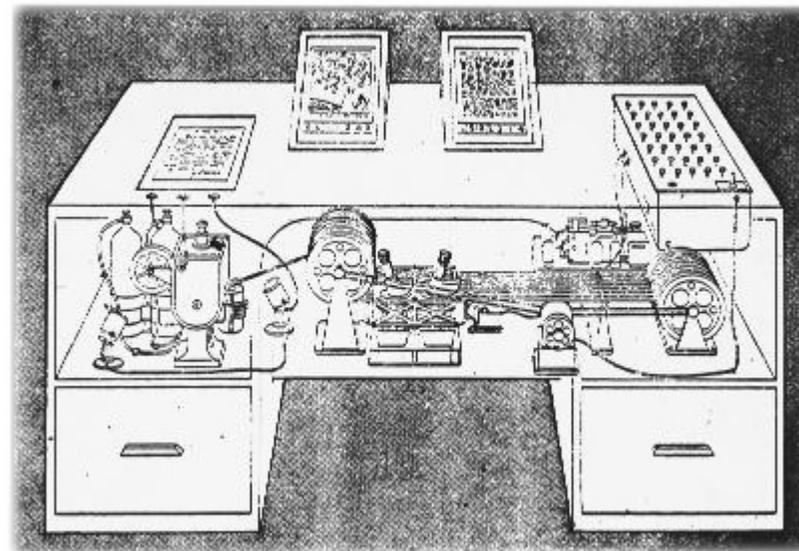

Vannevar Bush 1945: die Vision einer Maschine zur Erweiterung der eigenen Fähigkeiten

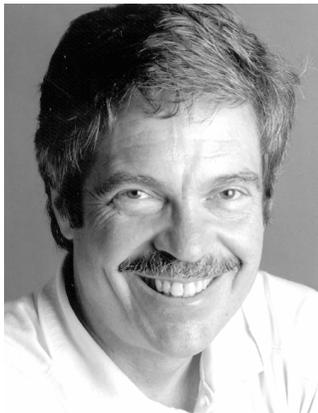

Aufsatz *As we may think*,
Atlantic Monthly, Juli 1945

„MEMEX“ (**MEM**ory **EX**tender): Maschine zum Archivieren, Wiederauffinden und Anzeigen von Dokumenten auf Mikrofilm

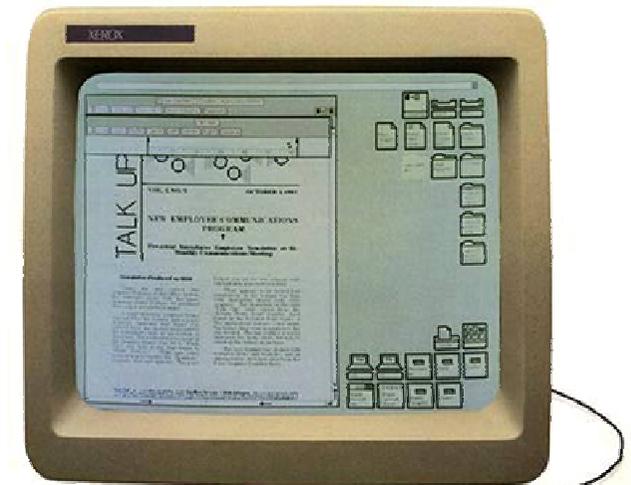

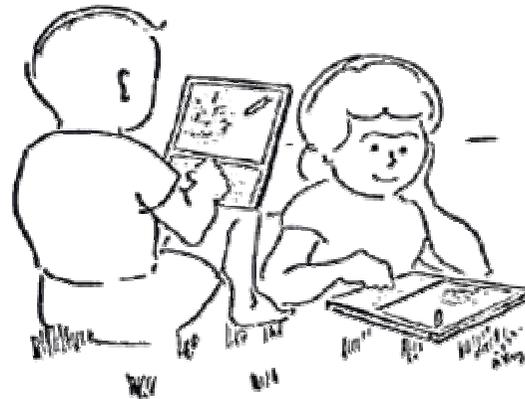

Alan Kay machte in den 70er Jahren den Computer für Laien zugänglich

Die Vision: ein Computer für Kinder

Desktop, Icons Papierkorb, überlappende Fenster

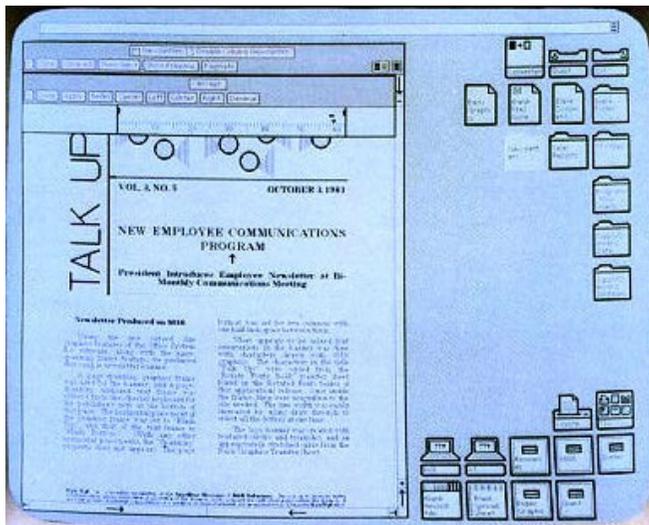

direkte Manipulation

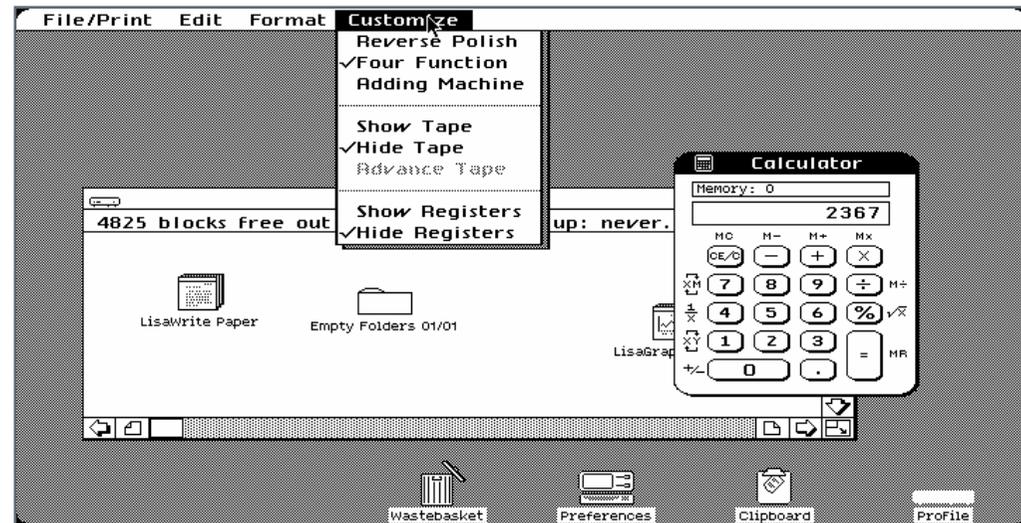

XEROX Star (1980)

Der Desktop ist Grundlage des Erfolgs des PC, aber seit 35 Jahren praktisch unverändert

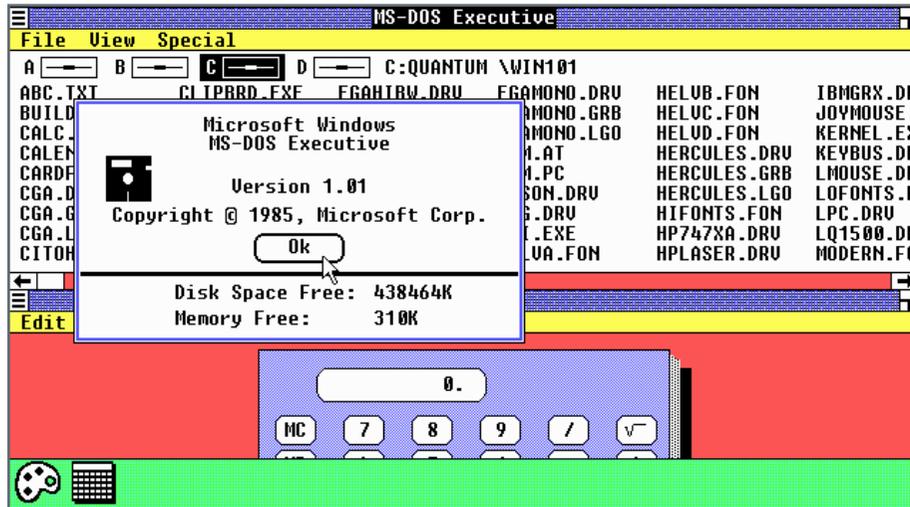

1981

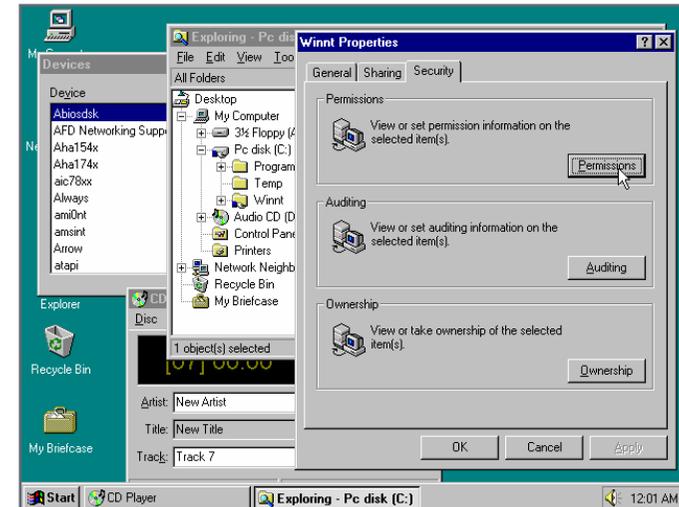

1983

Der Desktop ist Grundlage des Erfolgs des PC, aber seit 35 Jahren praktisch unverändert

1985

1995

Die Desktop-Metapher und andere Metaphern im Interface: Bestandteile

Gesamtheit: bildhafte, räumliche „Illusion“

- » Schreibtischoberfläche mit Objekten
- » Überlappende Fenster („Papier auf dem Tisch“)

Konkrete Objekte, die bestimmte Funktionalität oder Hardware symbolisieren

- » Ordner
- » Datenträger-Symbole
- » Papierkorb
- » Buttons („Schalter“)
- » Tabs
- » ...

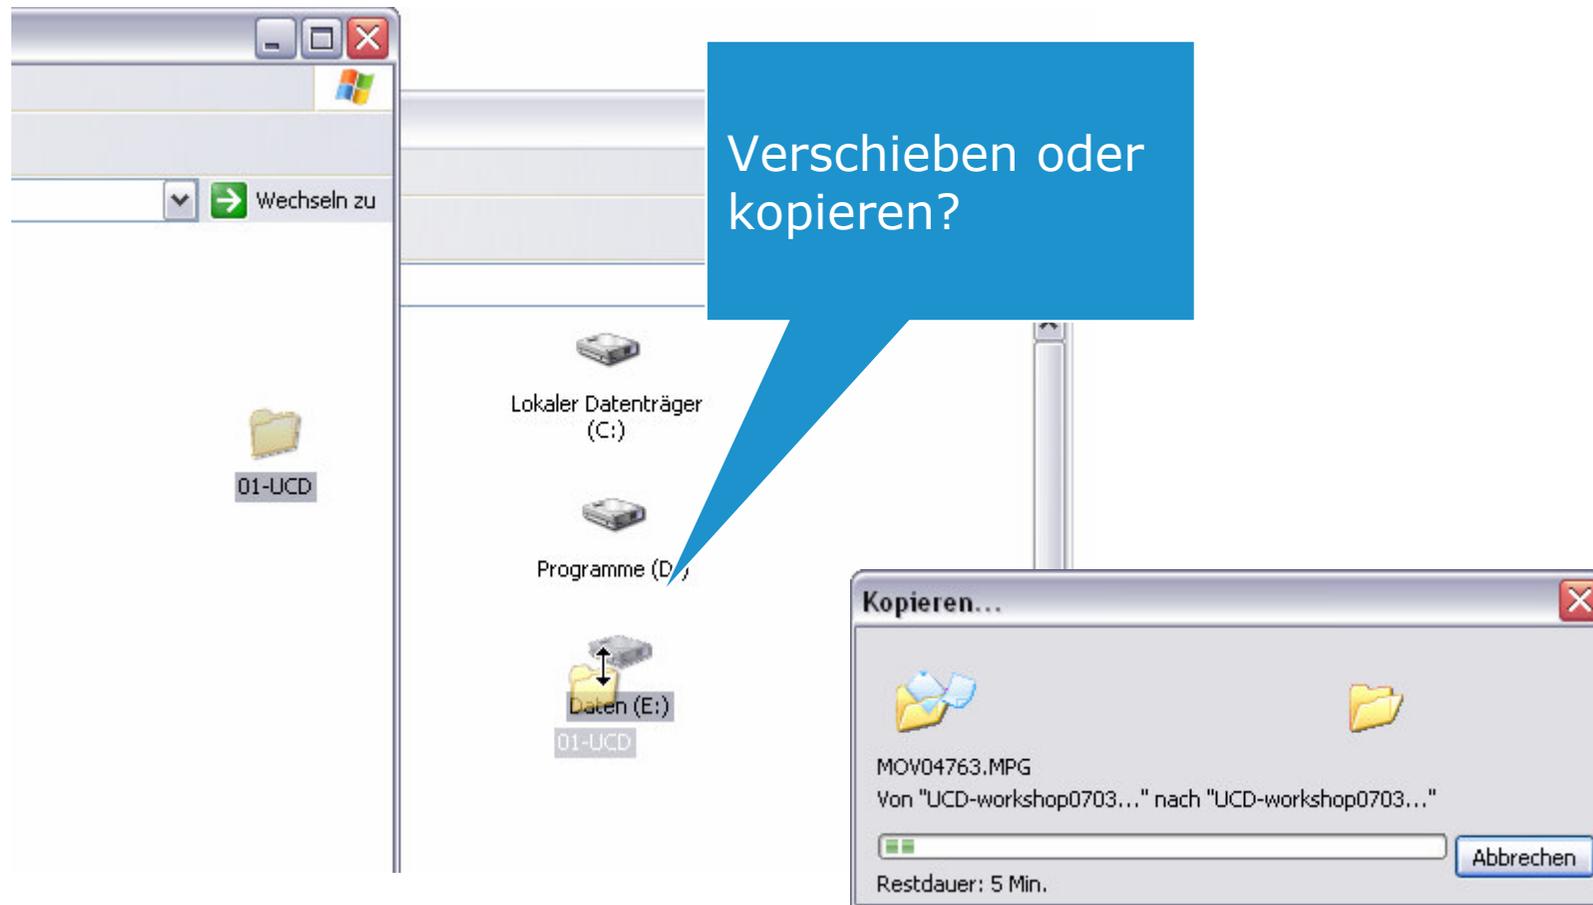

Die Grenzen der Metapher(n): Inkonsistenzen allerorten

- ⊕ 01-Arbeitsmaterial
- ⊕ 02-Verwaltung
- ⊕ 03-Übergreifend
- ⊖ 04-Teams
 - ⊕ 01-Team1
 - ⊕ 02-Team2
 - ⊕ 03-Team3
 - ⊕ 04-Team4
 - ⊕ 05-Sales
 - ⊕ 05-Team5
 - ⊕ 06-Team6
 - ⊖ 07-TeamXD
 - ⊕ 01-Übergreifend
 - ⊕ 03-Protokolle
 - ⊖ 05-Fachliches
 - ⊖ 01-UCD
 - ⊕ 10-Handbuch
 - ⊖ 11-Praesentationen
 - ⊕ Allgemeine-UCD-Praese
 - ⊕ material
 - ⊕ movies
 - ⊕ Uni-Vortrag
 - ⊕ workshops
 - ⊕ XP-Meeting
 - ⊕ 12-Schulung
 - ⊕ 20-Grundlagen-Wissen
 - ⊕ 21-Accessibility
 - ⊕ 22-Interfaces

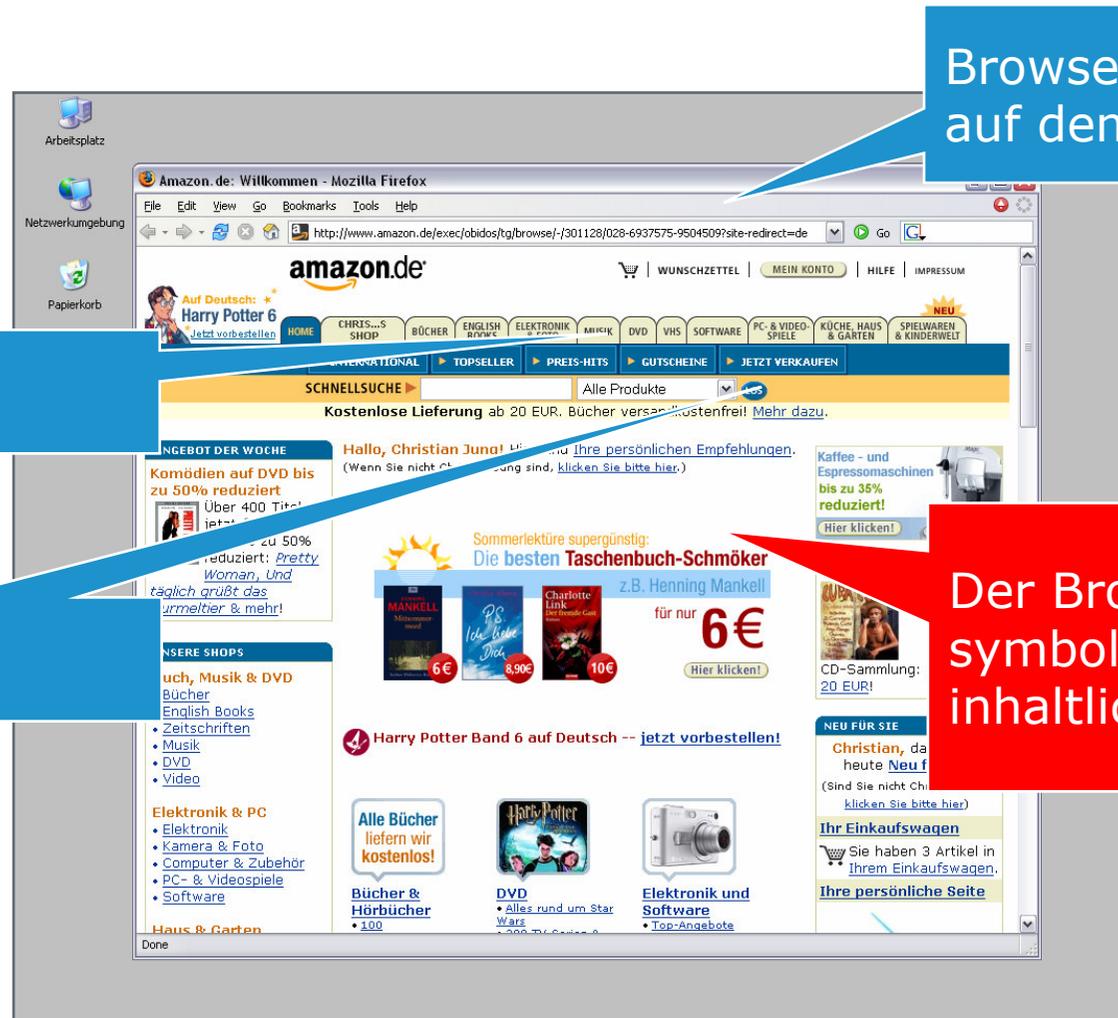

Hat jemand schon mal 20 ineinander verschachtelte Ordner gesehen?

Die Grenzen der Metapher(n): Inkonsistenzen überall

Die Web-“Page“ ist auch eine Metapher

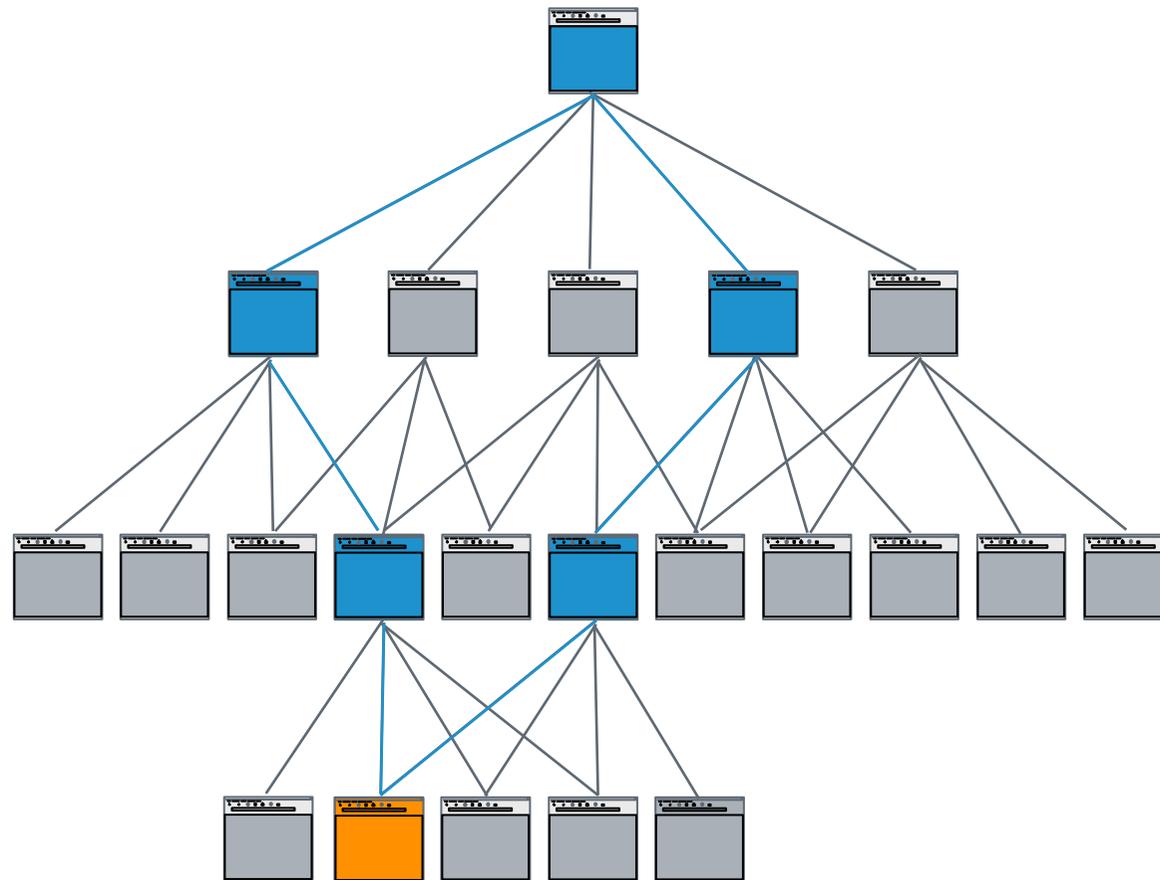

Browser = Blatt Papier auf dem Tisch

Tabs

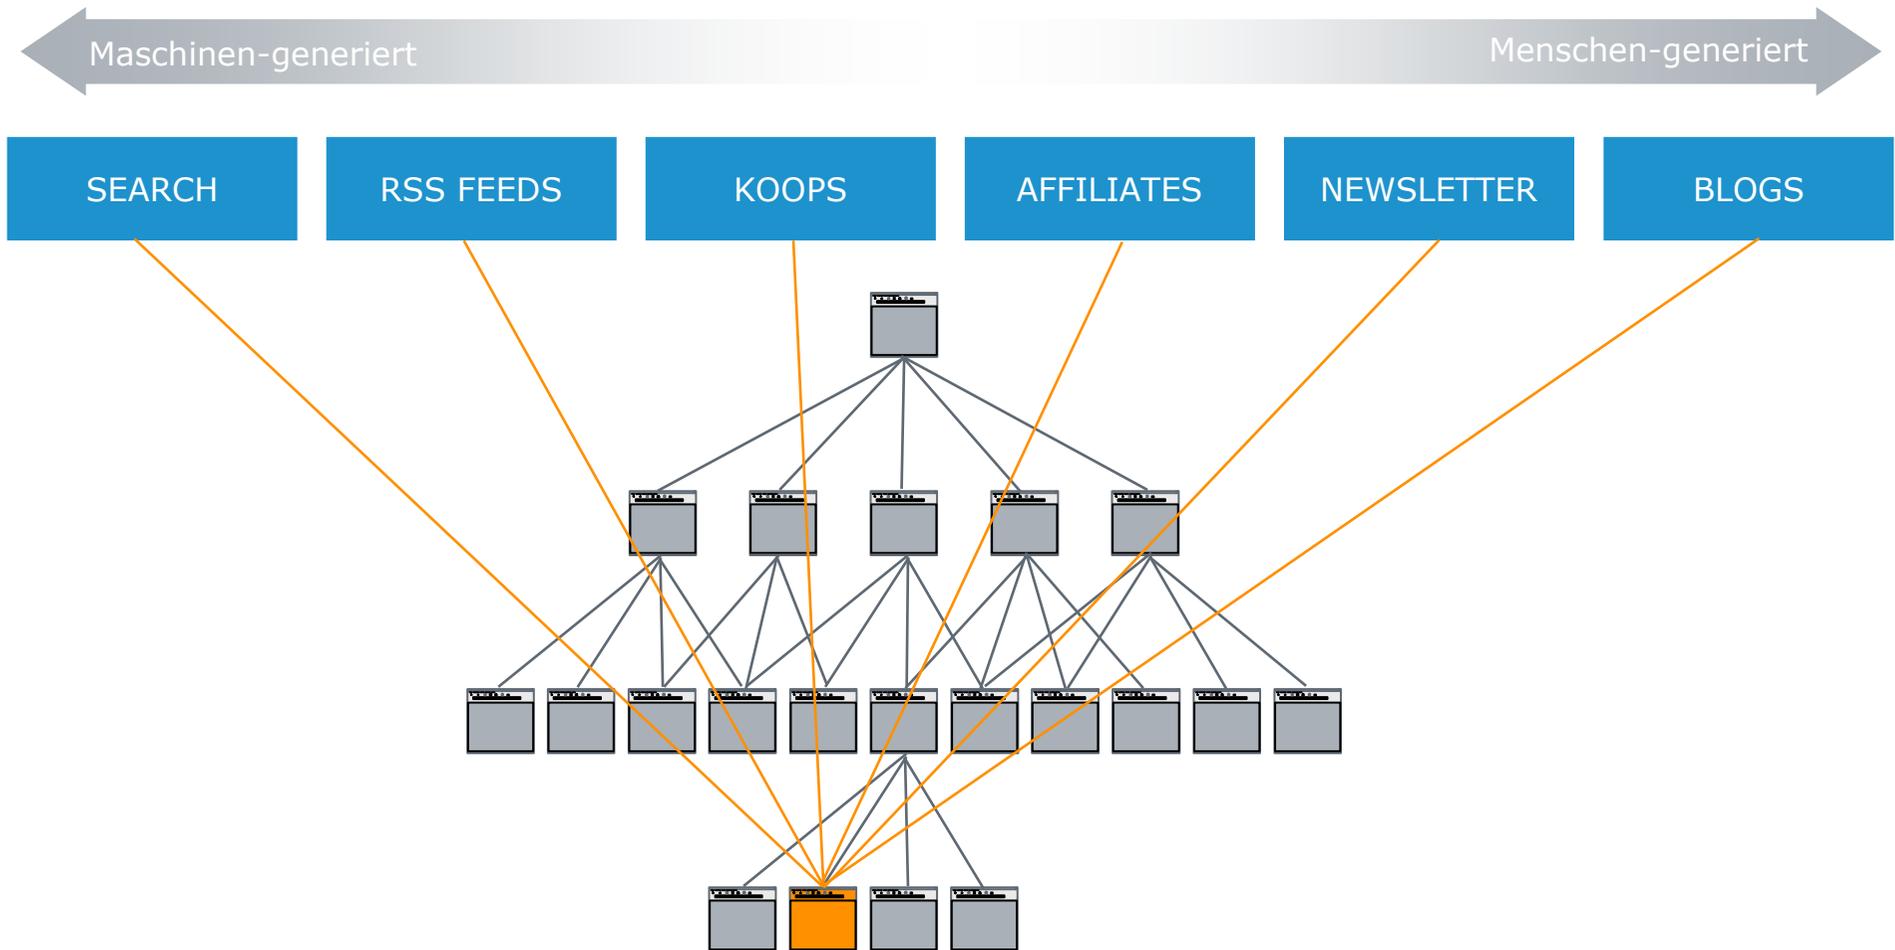

Schalter

Der Browserinhalt symbolisiert eine inhaltliche Einheit!

Die herkömmliche Website ist (nach der Metapher) ein inhaltlich geschlossenes System

Content Aggregatoren navigieren die Nutzer zunehmend direkt auf die atomaren Inhalte

Eine neue Generation von Computernutzern wächst heran

Kennt die
traditionelle
Büroumgebung
nicht mehr

Computer sind
selbstverständlich

Computer sind
leistungsfähig

Die Desktop-Metapher als Entwicklungshemmnis

„The most treacherous metaphors are the ones that seem to work for a time, because they can keep more powerful insights from bubbling up. As a result progress is slow“

Jef Raskin 1994, zitiert in Friedewald, 1999

„So wie sich das Auto vom Vorbild der Kutsche lösen mußte, um ein eigenes Profil zu gewinnen, muß sich die Mensch-Computer-Schnittstelle von dem anfangs hilfreichen, nun aber eher hemmenden Vorbild des Schreibtisches befreien“

Friedewald, 1999

Der neue Computernutzer braucht keine Metaphern mehr. Der Computer mit Desktop ist „overdesigned“

Und jetzt?

Die Applikation der Zukunft...

... hat keine Metaphern mehr sondern reduziert sich auf die Funktion

... hat dynamische „Ordnungs“prinzipien (weg mit dem Ordner!)

... nutzt intensiv Kommunikation und Vernetzung (Funktionalität, die über die alte Büroumgebung hinaus geht und deshalb nicht als Metapher dargestellt werden kann)

Reduktion

Reduktion auf die Funktion

Shared Bookmarks

del.icio.us login | register | about | popular

social bookmarks

» del.icio.us is a social bookmarks manager. It allows you to easily add web pages you like to your personal collection of links, to categorize those sites with keywords, and to share your collection not only among your own browsers and machines, but also with others.

» Once you've registered for the service, you add a simple bookmarklet to your browser. When you find a web page you'd like to add to your list, you simply select the del.icio.us bookmarklet, and you'll be asked for information about the page. You can add descriptive terms to group similar links together and add notes for yourself.

» You can access your list of links you've added most recently at the top of the page, or you can filter by specific keywords (you define your own keywords).

» What makes del.icio.us a social bookmarking service is that you can see what links other people have collected, as well as showing your own links collected by others, and submitting your own links.
